)	

FIFTH MODIFICATION OF SETTLEMENT AGREEMENT

This Settlement Agreement and Order on Consent ("Settlement Agreement") was signed by The Peoples Gas Light and Coke Company ("Respondent"), on September 12, 2011 and by the United States Environmental Protection Agency ("U.S. EPA") on October 12, 2011. The Settlement Agreement requires the Respondent to conduct a Removal Action at 3500 South Pulaski Road, Chicago, Illinois ("Crawford Site") on certain portions of the Crawford Site noted as Parcels A, B and O and depicted in Appendix 2 to the Settlement Agreement. On November 19, 2012, Respondent and U.S. EPA signed a modification of the Settlement Agreement to expand the area covered by the Settlement Agreement to include Parcel L. On September 30, 2014, Respondent and U.S. EPA signed a second modification of the Settlement Agreement to expand the area covered by the Settlement Agreement to include portions of Parcel I. On April 30, 2015, Respondent and U.S. EPA signed a third modification of the Settlement Agreement to expand the area covered by the Settlement Agreement to include portions of Parcels D and M. On April 20, 2016, Respondent and U.S. EPA signed a fourth modification of the Settlement Agreement to expand the area covered by the Settlement Agreement to include portions of Parcel K.

Based on the work done to date and a review of existing data, U.S. EPA has determined that the area covered by the Settlement Agreement should again be expanded to include portions of Parcels G and V as depicted on the attached diagram, which is made a part of this Modification. Therefore, pursuant to this Modification, Parcels G and V will be included in the definition of the area subject to work.

Pursuant to Paragraph 65 of the Settlement Agreement, the following changes are made:

1. Paragraphs 7(k), 8.i, 9.b, 9.f, 9.f.i, 9.f.ii, 9.f.iii, 9.g, 15 and 70 are modified to include Parcel K in the description of the Site as follows:
"Parcels A, B, D, G, I, K, L, M, O and V at the Site"
2. The Work Plan, subject to Paragraphs 65 and 66 of the Settlement Agreement, shall be modified to address the work required on Parcels G and V, subject to approval by the OSC.

Agreed this 21st day of Feb. 2019.
